

ALSO PROVIDER COURSE

This educational program is designed to enhance cognitive and procedural skills of health care professionals to help them manage obstetrical emergencies. The two-day course is for maternity care providers including physicians, midwives, nurses and other clinicians.

OVERALL COURSE OBJECTIVE

- Discuss ways of improving the management of obstetrical urgencies and emergencies which may help standardize the skills of practicing maternity care providers.
- Discuss the importance of utilizing regional maternity care services and identify possible barriers which might limit access.
- Successfully complete the course written test and mega-delivery testing station.

Detailed educational objectives are listed at the beginning of each ALSO® Course Syllabus chapter.

COURSE PURPOSE

- To increase cognitive knowledge regarding the diagnosis and management of obstetrical emergencies
- To increase hands-on skill needed to manage the care of patients during obstetrical emergencies
- To improve collegial interactions and coordination of care among all types of maternity care providers

CME & CNE INFORMATION

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

COURSE DISCLAIMER: The material presented at this course is being made available by the American Academy of Family Physicians for educational purposes only. This material is not intended to represent the only, nor necessarily the best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty which may be helpful to others who face similar situations. The AAFP disclaims any and all liability for injury, or other damages, resulting to any individual attending this course and for all claims which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician, or any other person. Every effort has been made to assure the accuracy of the data presented at this course. Physicians may care to check specific details, such as drug doses and contraindications, etc., in standard sources prior to clinical application. This course has been determined to be a Level 2 classification under the AMA PRA Credit and Classification Guidelines. The AAFP does not certify competence upon completion of the ALSO® Provider Course, nor does it intend this course to serve as a basis for requesting new or expanded privileges.
